

Holy Spirit's Vision for Religious Education

We believe that Religious Education at Holy Spirit enables our students to be learners who are inspired, confident and knowledgeable in the Catholic Christian Tradition.

They identify their learning as connected to the world they live in and shaped in the understanding of the Gospel Values, empowering them to participate critically and effectively.

Our Religious Education Curriculum implements best practice and is based on current pedagogy, building in students a desire for learning.

Holy Spirit School

We believe the Religion Curriculum and Religious Life of the School are interconnected.

These are visibly expressed through our gathering together as community in service, dignity and compassion, building positive relationships as well as justice and respect for all.
